- What is this book about?
- Where has badger gone?
- Do you know anyone who has died?
- What feelings did you experience? [anger? sadness? Disbelief? Acceptance?]
- How long might these feelings last for? [depending on the people, the negative feelings might last for days, weeks, months or years. Often, grief comes in waves - sometime you forget all about it, sometimes it feels overwhelming. Over time, if you receive the right help, you will start to be happy again.]
- What support might someone need if they experience the loss of a loved one?

Activity

Write list

Think about the gifts that badger gave to the people around him

Write down 5 things that you have learned from someone older than you, which you are grateful for

Extension

Explain why these things are so important to you

Fa2) Are all families like mine?

Objectives

- Appreciate that there are many differences between families and all families are unique
- Understand that there are far more similarities than there are differences
- Understand there is no one set family structure
- Appreciate that any type of family can provide love and support

Key vocabulary

Religion, skin colour, Islam, Muslim, mosque, prayers, represent, discrimination, same sex

Presentation: Are all families like mine?

Key Question

Are all families like mine?

[Unique features might include: religion, food, music, culture, customs and traditions, languages, disability, wealth, number/gender of siblings, number/gender of parents, living arrangements, fostering, adoption, young carers]

Class Discussion

Clearly, each family is special and unique, but are there more similarities or differences?

- What are the things that most families have in common? [Love, kindness, support, respect, make us feel safe]

Group Activity

Agree 1-10 Game

Do all families... ?

- 1) Read the statement
 - 2) Do you agree?
 - 3) How much on a scale of 1 to 10?
- 1 = totally disagree, it's false
10 = entirely agree, it's completely true

Play by writing numbers on mini-whiteboards, holding a certain number of fingers up, using a traffic light system (red = disagree, green = agree) or running to different ends of the school hall

Read book and ask these questions:

Before reading the book**[If students are mostly familiar with hijabs]**

- Who do you know that wears a hijab?
- Do you know why they wear a hijab?
- When do they wear a hijab?

[If students are not familiar]

- Do you know what a hijab is?
- Have you seen a hijab before?
- Are there any objects or articles of clothing that are important to you or your cultural traditions?
- How do they make you feel?
- Have you seen characters in books or films wearing hijabs?
- Why do you think you haven't seen many characters wearing hijabs?
- Why do you think it's important to learn about hijabs and when people wear hijabs?

After reading the book

- Which was your favourite hijab or hijab style in the book?
- When do characters wear a hijab?
[public spaces]
- When do the characters not wear a hijab?
[private spaces]
- What other groups of people have particular items of clothing that represent their religion, faith or culture?
[Turbans, crosses, kippah etc. - more examples and information here:
<https://www.tolerance.org/classroom-resources/tolerance-lessons/common-religious-clothing>]
- Why do some of the characters wear hijabs?

[Quote from author, Hena Khan "Like many other religions, Islam asks its followers, both men and women, to dress in a modest way.

Hijab is a common word for the headscarf that millions of Muslim women wear to cover their hair and often their ears, necks, and chests. They may choose to dress in the hijab to reflect their faith, to feel closer to God, or because they believe their religion requires them to keep these parts of the body private.

Women put on the scarf when they go to work or school, play sports, or do any activity in a public setting. But they uncover when they are at home, with the men in their immediate families, or in the company of other women and girls. Young girls may practice wearing a hijab as part of a school uniform or to mirror the women in their lives.

However, most girls don't wear the hijab regularly until adolescence. It is important to note that many observant Muslim women, including the author of this book, choose not to wear a hijab, based on their personal interpretations of Islamic religious requirements. Yet they

- What is a man's job? What is a girl's job?
[There is no such thing as 'a man's job' or 'a girl's job' but for 100s of years, people have thought that men and women should be treated differently. It is now illegal to stop someone getting a job because of their gender.]

- Can you describe the 3 people that are about to enter the room?
- Do you think that the children's drawings will be accurate?
- Play rest of film
- Why do you think that the children's drawings are different to the real people? [These are jobs that have traditionally been for men, not women]
- Are men and women the same? [Mostly, although on average men are stronger than women, so they might be better at some physical jobs]
- What might stop young women from choosing these jobs?
- Is there such a thing as "man's" or "woman's" job?

Activity

Draw someone doing a job that challenges a stereotype

For example, a man working in a nursery or a woman building a house

Are You a Boy or Are You a Girl?

by Sarah Savage (2017)

Buy

<https://www.amazon.co.uk/Are-You-Boy-Girl/dp/178592267X>

Class Discussion

- Is Tiny a girl or a boy?*
- Does it matter?
- What makes a boy, or a girl?
- Is it ok for Tiny to pretend to be a pirate, or a footballer, or a fairy?
- Has Tiny been a good friend?
- Has Tiny done anything wrong?
- Has everyone in the book been kind?
- Why is it unkind to call Tiny 'it'?

[They might be a better pronoun for people who don't identify exactly as a boy or a girl]

Activity: The Tangled Web

Resources: This activity requires a ball of wool.

Children sit in a circle. One child is given a ball of wool and told to throw it to someone they have a connection with, while holding the end of the wool and saying what the connection is.

The connection can be anything at all – from someone having the same colour hair, living in the same street, going to the same Gudwara, and so on).

The recipient takes hold of the wool so that it forms a bridge between them and the person who threw it, then throws the ball of wool to someone else, saying a different connection.

This activity provides a striking demonstration of how we are all connected in many ways. We are all similar in some ways, different in others. Remind children of the importance of valuing our differences.

R34. how to discuss and debate topical issues, respect other people's point of view and constructively challenge those they disagree with

L8. about diversity: what it means; the benefits of living in a diverse community; about valuing diversity within communities

R19. about the impact of bullying, including offline and online, and the consequences of hurtful behaviour

- What questions do you have for Tiny?
- Would you like to be Tiny's friend?
- What might be fun about being friends with Tiny?

Class Discussion

- What is discrimination?
- What kinds of discrimination are there?
[Racism, anti-religion and homophobia are listed as examples. If children don't understand what being gay is, you might want to put some time aside to explain that gay people are attracted to people of the same biological sex (for example men being attracted to men or women being attracted to women)]
- Why do people discriminate against others?
- Are all friends the same?
- Are there more differences or similarities between people?

Alternative books

This is a [list of other books](#) that challenge gender stereotypes and expectations

Information for teachers

* Tiny is probably non-binary, although it doesn't make this clear in the text. Some people are non-binary, which means that they don't feel happy being labelled, and living, as simply a boy or a girl. If children have more questions about this, or make statements about things they already know, feel free to engage in this discussion: this subject should not be considered taboo. It will be covered in more detail in UKS2, in the lesson "[Fr6\) How do I accept my friends for who they are?](#)". You may choose to wait until then to introduce words like non-binary and transgender to your students.

Teachers can feel uncomfortable talking about this subject, often because they don't feel that they know enough themselves. This simple [diagram](#) helps you to understand some of the different components that go together to form someone's identity. This may be shown to the children, if the teacher feels that there is a need or interest from the children, although it may be too complex for them.

The advice of this curriculum is that it is better to keep things simple, and teach them well. However, some children or groups may need targeted advice. The school may decide to facilitate interventions for children who are questioning their gender identity and they may include that child's whole class if they felt that would be helpful. There may be reasons for schools to teach words such as 'non-binary' and transgender, because there are children in your school who identify as such or if you have had instances of transphobic bullying. You may wish to use these [slides](#) to help explain the issue to children in your setting.

**Please note that it is disrespectful to show an image of the prophet Muhammad, so please never do this. It is common practice for Muslims to say "peace be upon him" after saying the prophet's name; you may wish to explain this to the class.

[Useful links for teachers](#)

Teachers looking for more guidance should follow this link to a word document, which contains a large range of information regarding gender and sexuality, including advice on whole school approaches to reducing homophobic and transphobic bullying.

Fr3) Are friendships always fun?

Objectives

- Understand that relationships come with a mixture of positive and negative emotions
- Appreciate that friendships are not always perfect
- Understand that it is normal to disagree with your friends
- Develop techniques to deal with conflict within friendships
- Understand when a relationship is unhealthy when support is required

Key vocabulary

- Did Pooh want to sit down and be painted by Piglet?
[No, because he was hungry. He tried to sit still but couldn't manage it]
- Why did the others also not want to sit down and be painted?
[they all had other things that they wanted to do]
- What did Piglet realise?
[If you want to be a good friend, you sometimes have to compromise (meet them half-way)]
- What did Piglet do that meant everyone was happy? [He realised that you don't always have to have everything exactly like you want it - sometimes you have to compromise and think about other people's feelings too]
- Do you think that Piglet's friends should have sat still to be painted?
[No - you don't have to change what you're doing to please your friends all the time, but it's nice when you make a plan that ensures everyone can be happy]

Class discussion

- Do friends always agree on what to do?
- Do people sometimes ask you to do things that you don't want to do?
- Should you always do what your friends want?
[No - you have to get the balance right between getting what you want and also making room for your friends to also have fun]
- Are you responsible for the happiness of your friends?
[No - you can't make everyone happy all the time, but it is good to be kind and to do caring things for people. You have to balance making sure that you are happy yourself and checking that other people are happy too]

C1) How do we make the world fair?

Objectives

- Understand what is meant by 'the rule of law' [link to British Values]
- Understand the basics of how laws are made and enforced
- Appreciate the reasons why we need laws and that these are not always the same for everyone (some people need more protection - for example children)
- Appreciate that the world is not fair and it is our responsibility to help those less fortunate
- Identify our common values (Link to 'British Values')

[Presentation - How do we make the world fair? #](#)

Key Question

Why do we have rules...

- In families?
[To help us live together. Rules help everyone know what is ok and what is not. Rules make sure things are fair for everyone. For example, so you all get an equal amount of food or so you don't get run over when you cross the road]
- In school?
[Lots of people work in every school. Without rules, some children would get hurt or be sad. Rules help us make sure that everyone is treated equally]
- In countries?
[We have to work together to make society a nice place. Adults have to pay tax, otherwise we couldn't pay people to help us, like doctors and street cleaners. The government makes laws to protect us, such as "Do not speed in your car" or "Do not hurt other people". The police make sure that everyone is sticking to the rules]
- In the world?
[We have to share our planet with each other and with

Starter Activity

C2) Where do you feel like you belong?

120 minutes

Objectives

- Understand that we are all part of a wider community if people, who we rely on
- We have a responsibility to support other people in our community when we are able to
- Know that we should treat the people in our community with respect
- Understand that biological parents (“Tummy mummy” and “birth dad”) are not always the people that look after a child
- Appreciate that the people you live with are not always part of your ‘birth family’ (adopted/foster care, carers)

Key vocabulary

Community, citizen, support, belong, adoption, same-sex, gay, straight

PSHE links

R32. about respecting the differences and similarities between people and recognising what they have in common with others e.g. physically, in personality or background

R1. to recognise that there are different types of relationships (e.g. friendships, family relationships, online relationships)

R19. about the impact of bullying, including offline and online, and the consequences of hurtful behaviour

R33. to listen and respond respectfully to a wide range of people, including those whose traditions, beliefs and lifestyle are different to their own

L6. about the different groups that make up their community; what living in a community means

C2) Where do you feel like you belong? - Presentation

Key Question

Where do you feel like you belong?

Stimulus

- Show various images of community groups (schools, families, friends, religions, sports, music)
- What is a community?
[group of people who have similar interests]
 - What are the signs of a positive community?
[cares for its members, includes people, is kind to people not in that community, makes you feel welcome and safe]
 - How many communities are you part of?
[school, family, friends, religion, sports, music, hobbies]
 - Who is in my community?
[friends, family, teachers, cleaners, sports coaches, vicars, imams, police officers, NHS staff, fire brigade, shop workers, bus drivers etc.]
 - Am I equally close to all of them?
[No, some are closer than others - different things are appropriate with different members of our communities]
 - Who are my most trusted adults?

Class discussion

- How do our communities support us?
- Which member of your community might help you with each of these things:
Give us hugs, help us to wash, support us, be kind to us, help us to learn, keep the streets clean, provide food, take us places, help us if we are poorly, protect us from danger

[Complete activity worksheet]

Class discussion

- What is a citizen
[Someone that is part of a wider community (like a city or a country)]
- How can I be a good citizen?
[We all need support from our community but to be a good citizen, you have to do what you can to help your community too]
- What could you do to help your community?
[Pick up litter (but be careful of sharp objects and needles - never touch these), be kind to people, be polite, work hard at school, share nicely, obey the law, don't waste energy, support charities]
- Who should we treat with respect?
[Everybody deserves your respect. Think about people who might not always get the respect that they deserve]
- Who in our communities needs support?

Activity

Community Map

Give children the printout with the outline of a child in the centre and branches reaching out to different boxes, which will represent organisations and groups (church, mosque, school, family, friends, football, dance etc.)

Leave space by each group for more details, added after the next section

We Are Adopted

by Jennifer Moore-Mallinos (2007)

Buy

<https://www.amazon.co.uk/Are-Adopted-Lets-Talk-About/dp/0764137875>

- Do all children live with their biological parents? (original parents / birth parents / tummy mummy)

[No - many children are adopted or live with foster parents]

- Do you need to have biological parents to thrive?

[No - we need love, safety and kindness to thrive]

* Some children may find the content of this discussion distressing, especially if the issues have personal resonance. Use your professional judgement to decide how to support them, whilst also achieving the lesson objectives. For example, you might talk to them before the lesson and discuss the way they feel about the wording you will use. You could mutually agree on the strategy for addressing the issues, so they feel empowered to decide whether they take part in the conversation or remain silent.

C3) How can we help the people around us?

Objectives

- Understand that we have the power and responsibility to make our communities better places to live

Key vocabulary

Community, responsibility, acts of kindness

PSHE links

R14. that healthy friendships make people feel included; recognise when others may feel lonely or excluded; strategies for how to include them

L4. the importance of having compassion towards others; shared responsibilities we all have for caring for other people and living things; how to show care and concern for others

L7. to value the different contributions that people and groups make to the community

C3) How can we help the people around us?

Key Question

How can we help the people around us?

Videos

In the following videos, we learn about young people who help other people in their family. They have to put in more effort when at home than most children.

Video: *Series of videos about Young Carers**

<https://www.bbc.co.uk/newsround/35420196>

- What might it be like to be a young carer?
- How might a young carers life be impacted by their role?
- What support might young carers need?
- Where should this support come from?

Class Discussion

- How does our community help us?
[Our community supports us by providing shops for food, cleaners to keep our areas tidy, schools for education, hospitals for healthcare etc.]
- What small things can we do to help our community?
[Pick up litter (be careful of broken glass and needles), be polite, don't drop rubbish, hold doors open for other people, help younger children find friends, help our partner in lessons, help parents and carers at home with cleaner and cooking, tidy our rooms, smile or wave to your neighbours, say something kind to your family, invite a lonely child to join your game, let someone else go ahead of you in the line, write a letter to your MP about an important world issue, give money to charity, ask your parents for fewer things, buy products with less plastic packaging, walk to school instead of travelling in the car]

Online Safety

N.B. The following lessons are taken from the [Sheffield Primary Online Safety Curriculum](#), available for free to all Sheffield schools. The units presented here are what we consider to be the most crucial lessons and the ones that best fit with the RSHE curriculum, however we recommend that the full online safety curriculum is also taught, as part of PSHE and computing lessons as appropriate.

Os1) Online strangers

Objectives

- Understand that people on the internet are not always who they say they are, and may have malicious intentions

Key vocabulary

Strangers, online, deception, social media

PSHE links

H42. about the importance of keeping personal information private; strategies for keeping safe online, including how to manage requests for personal information or images of themselves and others; what to do if frightened or worried by something seen or read online and how to report concerns, inappropriate content and contact

R11. what constitutes a positive healthy friendship (e.g. mutual respect, trust, truthfulness, loyalty, kindness, generosity, sharing interests and experiences, support with problems and difficulties); that the same principles apply to online friendships as to face-to-face relationships

R12. to recognise what it means to 'know someone online' and how this differs from knowing someone face-to-face; risks of communicating online with others not known face-to-face

R22. about privacy and personal boundaries; what is appropriate in

R19. about the impact of bullying, including offline and online, and the consequences of hurtful behaviour

Presentation: Friendship Online

Watch: CyberSmart Hero

https://www.youtube.com/watch?v=4-OpBC_zZLk

Cyberbullying, posting, sharing, liking and the bystander effect
Start at **0.50**

- What are the issues with sharing passwords with your friends? [You lose control over your photos, messages and personal information - young people often fall out and have been known to abuse the trust of their friends. No-one needs to know your password! Password sharing is a huge cause of issues for 8-12 year olds]
- Why might Riba have been upset that Hero was friends with Anna? [She was jealous and bitter, because Anna won the sports competition]
- Why did Anna write 'lol' about the embarrassing photo of Anna in the group chat? [She wanted to fit in, she thought it was funny, but didn't appreciate the consequences, it's easy to talk about someone behind their back]
- Why did Riba send the group email? [She was jealous of Anna, and felt threatened by her - she wanted to be more popular herself]
- Was it only Riba's fault that Anna got upset? [No - everyone that shared or liked the post is part of the problem]
- Why is it sometimes easier to be unkind online than it is in real life? [People don't realise the hurt that they are causing - they get lost in the moment, in the joke]

Class discussion:

Have any of these issues affected you?

What should you do if this happens to you?

What kind of person sticks up for their friends, instead of going along with the bullying? [brave, trustworthy, loyal, mature, don't always follow the crowd]

Do Activity 1

Class discussion:

A good online friend would not:

- Ask us to keep secrets and would not ask us for our personal information.
- Share our personal information including our pictures with anyone that we did not know and without our carers permission
- Do, or ask us to do, things that make us feel uncomfortable or sad, e.g. ask us to meet up, swear or spoil games.
- Give us things for free in games without us knowing them in the real world – compare with gifts from strangers in the real world.

Activity 1: Create

Create an anti-cyberbullying poster, to embed the ideas from the discussions (using PicCollage, Explain Everything, ActivInspire, PowerPoint etc.)

Ideas:

- Good friends are loyal, and stand up for each other
- Don't always go along with what everyone else is doing, if you think that it is wrong
- If you don't stick up for victims, then who will?
- If you are worried, tell an adult
- Online comments can be just as hurtful as face to face ones
- Liking and sharing are just as bad as posting
- Don't share passwords

Activity 2: Write

Children write a list on whiteboards to answer the question:
"What would a good online friend never do?"

R20. strategies to respond to hurtful behaviour experienced or witnessed, offline and online (including teasing, name-calling, bullying, trolling, harassment or the deliberate excluding of others); how to report concerns and get support

R30. that personal behaviour can affect other people; to recognise and model respectful behaviour online

R31. to recognise the importance of self-respect and how this can affect their thoughts and feelings about themselves; that everyone, including them, should expect to be treated politely and with respect by others (including when online and/or anonymous) in school and in wider society; strategies to improve or support courteous, respectful relationships

L11. recognise ways in which the internet and social media can be used both positively and negatively

L15. recognise things appropriate to share and things that should not be shared on social media; rules surrounding distribution of images

Os4) Personal Information

Objectives

- Have a more thorough and sophisticated understanding of personal information
- Understand that websites store a lot of our information

Key vocabulary

Personal, information, identities

PSHE links

H42. about the importance of keeping personal information private; strategies for keeping safe online, including how to manage requests for personal information or images of themselves and others; what to do if frightened or worried by something seen or read online and how to report concerns,

How do you spot Fake news?

[Answers might include:

- Has the story been reported anywhere else?
- Is it on the radio, TV or in the newspapers?
- Have you heard of the organisation that published the story?
- Does the organisation that wrote it have a good reputation?
- Does the website where you found the story look genuine? (meaning it doesn't look like a copycat website that's designed to look like another genuine website)
- Does the website address (URL) at the very top of the page look real? Is the end of the website something normal like '.co.uk' or '.com', and not something unusual, like 'com.co'?

Quiz

<https://www.bbc.co.uk/cbbc/quizzes/real-or-fake-news-quiz>

Can children guess whether these stories are real or fake?

Encourage them to suggest their reasoning for why they believe it or not

Teacher verifies the correct ones by modelling how to cross-reference using the internet

Key Question

Why would someone create fake news?

[To make money - every time you visit a webpage, Instagram page, Snapchat feed or YouTube channel, the makers will make a bit of money. The money comes from advertisers, who use this site to show you adverts, which make you want to buy things]

Individual activity

Children make a checklist for spotting fake news

Example

<https://www.ifla.org/files/assets/hq/topics/info-society/images/how-to-spot-fake-news-440px.jpg>

Small group activity

Children create their own news

Children use iPads and green screens to create their own misleading news reports.

Alternatively, they could record a radio news report

Example news report

Or create a fake newspaper report (repeat of KS1)

H20. strategies to respond to feelings, including intense or conflicting feelings; how to manage and respond to feelings appropriately and proportionately in different situations

Class Discussion

Why does talking and sharing feelings help?

[Experiencing joy is important, and when you share that, the people around you might feel happy too. When you are down, you will feel better when you talk about it, because then you feel less alone. You will learn that lots of people share the same kind of feelings. You will feel affirmed that other people understand you and that your emotions are valid. You will build a sense of belonging]

What does “Listening to your feelings” mean?

[If you understand your feelings, then you can better understand how to stay happy. You might notice that certain things make you feel certain emotions. For example, if you see your best friend playing with someone else, you might feel angry. Ask yourself “Why am I angry?” Maybe it’s because I’m jealous? Maybe I’m worried that if my friend plays with someone else, they won’t play with me any more and I’ll be lonely. The more you practice asking these kinds of questions, the better you will be able to control your thoughts. Instead of these negative emotions, tell yourself “I’m happy that my friend is having fun. Maybe I can join in too?”. If you can spot the early warning signs of certain feelings, you can understand your emotions more effectively - these might include butterflies in your tummy, feeling hot or agitated, going red in the face or your heart racing]

Why is shouting at people not a good idea?

[When we feel angry or sad, we might want to shout at other people. This doesn’t mean it’s ok. Sometimes we get the urge to do something hurtful, like call someone names or fight. As we get older, we need to learn to notice these urges, and regulate them. When we shout at someone, we upset them. We’ve passed on our bad mood to them. Instead, try calming down by walking away. If that doesn’t work, talk to someone you trust, like an adult at school or someone from your family.]

poem about it)

- Do some exercise
- Get plenty of sleep
- Have some quiet time on our own for a bit
- Walking away if we feel the need to calm down
- Crying
- Remind yourself that this uncomfortable feeling won’t last forever and there are lots of good things in your life
- Remember that we all deserve to feel happy and joyful

Key Information

We need to learn to manage our own emotions

Picture of a stress bucket

This is a metaphor for the way our emotions build up over time
Water going in the top represents things that make us stressed out

The tap at the bottom represents things that help us to relax and let stress out

The size of the bucket is different for everyone - some people cope well with stress, others need to learn how to do it (make

Section 6: Growing up

N.B. This unit is based on advice from NHS staff in Sheffield. Schools are welcome to decide for themselves when the best time is to deliver this lesson.

Objectives / Questions	Discussions	Activities
<p>G1) What is a period? (Optional - can be taught at the end of Y4 if schools wish to inform children of the changes that affect menstruators. A much more detailed unit is in the UKS2 lesson plans, to be taught half way through year 5)</p> <p>Objectives</p> <ul style="list-style-type: none"> - Know that some people have periods - Understand that this is a normal part of life and a sign of health development <p>Key vocabulary</p>	<p>Key Information As we become teenagers, our bodies change</p> <p>Girls* will start their period between the ages of 10 and 16, although some start as early as age 8, which is why we are letting you know now. It probably won't affect you for a few years, but it's better to be prepared than for it to be a surprise!</p> <p>It is completely healthy, and a good sign that you are developing normally.</p> <p>There is nothing to worry about, but there are a few things that are good to know:</p> <ol style="list-style-type: none"> 1) When you start your period, a small amount of blood will come out of your vagina. This is completely normal and should not cause alarm. 2) When this happens, you might need some help to soak up the blood. There are things called menstrual products (sometimes sanitary products) that will help you with this - tampons, sanitary towels/pads and moon cups. We won't go into detail about this now, but you can ask an adult you trust if you'd like more information. 3) If possible, talk to someone you trust about what to do. And remember, it's perfectly normal and adults will understand what to do.

Information for teachers

This lesson is deliberately brief and contains little detail. It is appropriate to answer any questions that children have. Trust your judgement: dispel myths and reduce anxiety, but feel free to defer most questions until the children are in year five, so they can fully understand the complexities of the subject. Although it is unnecessary to explain the menstrual cycle in detail, if children are curious about it then they may go to the internet for answers, which can be problematic. Therefore, children should know that they can come to you with questions should they have any.

NHS guidance about starting periods

<https://www.nhs.uk/conditions/periods/starting-periods/>

*When students are older, it is better to refer to 'menstruators' or 'biological females' when referring to people that experience a menstrual cycle. This allows all people to be included. However, at this age, we believe that using 'girls' gives more clarity and avoids confusion without spending a long time explaining the exceptions to this rule. If schools have children who identify as boys, but who are likely to experience periods, then specific intervention is recommended to ensure that they feel included in this conversation.

N.B. PSHE objectives

'PSHE links' refers to the learning objectives from the PSHE education programme of study Key stages 1-5 (January 2017)

Some learning objectives are covered in multiple units in LKS2, and several will be covered again in UKS2

The following PSHE association learning objectives are not covered in any specific lessons, but will be achieved throughout the curriculum passively:

- R11. to work collaboratively towards shared goals
- L1. to research, discuss and debate topical issues, problems and events that are of concern to them and offer their recommendations to appropriate people

This learning objective have not yet been covered in this curriculum:

L16. what is meant by enterprise and begin to develop enterprise skills

(It is suggested that enterprise be taught using wider curriculum subjects, such as design technology, art, maths and science, in combination with whole school events such as bake sales, fêtes and parent events)
